

## Invited people

Dra. Pilar Salagre

Dra. Sílvia de Lamo Castellví, Departament d'Enginyeria Química,  
Universitat Rovira i Virgili

Joan Güixens, Photographer

## Acknowledgments

Òscar Saladié, Càtedra DOW/URV de Desenvolupament Sostenible  
Director

Deganat Team and *Oficina de Suport al Deganat* members of  
Facultat de Química, URV

## Participating companies and entities

## Commission of the GCS:

Pilar Salagre, Núria Fontanals, M. Cinta Pujol and Xavier López

## Organized

Facultat de Química

C/ Marcel·lí Domingo 1

Campus Sescelades. 43007 Tarragona

Phone.: 977 55 97 99. Fax: 977 55 82 37

# The role of Chemistry in food

UNIVERSITAT  
ROVIRA I VIRGILI  
Facultat de Química

Facultat de Química  
January 30, February 4 and 6, 2020

## Activity Program

### Objectives

The present and the future are marked by the problem of climate change and other environmental effects produced by human activity. Food and diet are both related to this climate shock, and to our health. Discussing and analyzing how Chemistry can play a positive role in this area will help us foster a practice of Chemistry and other related activities that emphasize the principles of sustainability. For this reason, we propose a program of activities to enjoy entertaining days and, at the same time, allow us to acquire new knowledge related to Green Chemistry. We want to establish debates that facilitate the development of criteria in this field for the future as professionals and as a society.

### Location

*Facultat de Química URV.*  
Classrooms 001, 101, 102 and 103.

### Enrolment information

- Students enrolled in Citizenship (course 2019-20).

They must register for the course in the Moodle space of the subject and, therefore, they do not have to register via the web. Consult open **until January 15**, included.

- Students not yet enrolled in Citizenship, but who want to be kept up the GCS's note for a next enrolment.

They must register by sending an e-mail to [mariacinta.pujol@urv.cat](mailto:mariacinta.pujol@urv.cat), without payment (till January 15).

The working sessions have a total duration of 10h. Students may request the recognition of the activity with 1 ECTS for the Subject Citizenship (Degree in Chemistry) or for the subject Interdisciplinary Seminars (Degree in Biochemistry and Molecular Biology and Double Degree). The recognition of the credit requires the fulfilment of the requirements indicated in the document of evaluation of the GCS.

### Thursday January 30

#### 15.30 • Presentation of the 13<sup>th</sup> GCS. Classroom 001

Motto, objectives, program of activities, participation, standards and evaluation criteria.

Language: Catalan and English

#### 16.00 • Taller: Mirem la Química en base als principis de la Química verda i la Sostenibilitat. Jornades de Química Verda des del curs 2007-2008 fins l'actualitat. Classroom 001

By Dra. Pilar Salagre.

Language: Catalan and English

### Tuesday February 4 (morning)

#### 8.00 • Visits

FruSelva

Griffith foods

Mas dels Frares (Celler URV)

#### 12.00 • Opening ceremony of the XIII GCS. Classrooms 101 and 102.

In charge of the dean of the *Facultat de Química* of the URV, Yolanda Cesteros

Language: Catalan

#### 12.30 • Conference. Classrooms 101 and 102,

*Els insectes, nous ingredients pel disseny de productes alimentaris.*

By Dra. Sílvia de Lamo Castellví, Departament d'Enginyeria Química, Universitat Rovira i Virgili

Language: Catalan

#### 13.45 • Prizes of the 11<sup>th</sup> Photography Contest. Classrooms 101 and 102

Motto: *The role of Chemistry in food*

Presented by: Òscar Saladié.

Screening of submitted photographs and awards ceremony of the XI edition of the competition organized by the *Càtedra DOW/URV de Desenvolupament Sostenible* in collaboration with the *Facultat de Química*.

#### 14:30 • Break

### Tuesday February 4 (afternoon)

#### 15.30 • Presentation and screening of documentary. Classroom 001.

*Menjar impossible* – No pot ser! Tv3. Year 2019

*Los aditivos son más una bendición que un problema*

- Salvados. La sexta. Year 2013.

Language Catalan, spanish and English

#### 16.45 • Debate. Classroom 103

Activity related to the movie.

### Thursday February 6 (afternoon)

#### 15.00 • Workshop: Let's decipher the labels of our food

**Classroom 103.** Directed by: GCS Commission.

Language: English
